ALESSANDRO CONTU

ABOUT ME

Passionate and determined master's student in computer science engineering, I'm not daunted by the challenges I encounter. During my studies I had several times the opportunity to work in teams and develop skills in different fields. I consider myself a curious and receptive person who appreciates anything that gives a new view of the world.

EDUCATION

Politecnico di Milano
Computer science and engineering | 2021 - now

- Master's degree

Università Politecnica delle Marche
Computer and automation engineering | 2017 - 2021

- Bachelor's degree achieved in 3 academic years, 110/110

WORK EXPERIENCE

Data Scientist - Thesis internship
ML Cube | March 2023 - now

- Digital Advertising Performance Forecasting: implementation of forecasting features on AD cube, an AI based platform for advertising campaigns.

Software developer - Thesis internship
Infoservice | October 2020 - November 2020

- Development of software components for synchronization between a centralized database and integrated databases in mobile applications

UNIVERSITY PROJECTS

Artificial Neural Networks and Deep Learning
- Development of two neural networks for time series forecasting and image classification

Recommender Systems
- Development of a hybrid recommender system to create personalized TV series recommendations

Data Visualization
- Creating dynamic charts to analyze the possible use of Bitcoin as a substitute for gold in investments

Data Bases
- Data collection and development of an SQL database

CONTACTS
